Extended Deadline for Agricultural Enterprise Areas Petition Submissions

On March 24, 2020, Governor Tony Evers directed the Wisconsin Department of Health Services to issue a Safer At Home order ([Emergency Order #12](#)), requiring individuals to stay at home except for essential businesses and activities. In order to accommodate our partners and communities who are practicing social distancing and limiting meetings to less than 10 people, the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) is extending the agricultural enterprise area petition submission deadline to **August 5, 2020**.

If you have any questions about the extension or are interested in petitioning for a new agricultural enterprise area, please contact DATCP at (608) 224-4611 or email datcpworkinglands@wisconsin.gov. Petition materials, instructions, and additional information about agricultural enterprise areas are available on the [petitioning for agricultural enterprise area \(AEA\) designation webpage](#)
